

EUROPEAN COMMISSION

Cabinet of Mr. László Andor

Head of Cabinet

Brussels, 24/03/2010
A/10/199-D/10/37

Dear Ms Nowicka,

On behalf of Commissioner Andor, I would like to thank you for your letter of congratulations as well as the material you have sent.

Advocating in a collective voice for sexual and reproductive health and rights in all Member States is essential and I have to agree with you that it is of special importance in Central and Eastern Europe. Your effort in awareness raising about women's sexual and reproductive rights and health is the realisation of a fundamental right as underlined in the relevant European Parliament resolution.

Gender issues are of high priority for the new European Commission be it in their anti-discrimination aspects (under the responsibility of Vice-President Reding) or as an aspect of health policy (under the responsibility of Commissioner Dalli).

Commissioner Andor and his team can assist in this context for any issues that are directly linked to social inclusion and employability.

I wish you all the best with the ASTRA network.

Yours sincerely,

Anabela GAGO

Ms Wanda Nowicka
