

Dear Ms Nowicka,

On behalf of the Czech Ministry of Education, Youth and Sports, I would like to thank for your email from February 13, in which you were asking the Presidency to incorporate Sexuality Education into Key Messages for the Spring European Council.

Here we would like to say that the sexuality education is considered as very crucial by the ministry. Nevertheless, the overall topic of the document Key Messages, which should feed into the conclusions of Spring European Council, was decided to be a recovery from the current economic and financial crisis through the means of education. That is why, the concept of sexuality education was not seen as a really relevant subject to be added. However, we are sure the topic will receive the due attention in the forthcoming Presidencies.

Best regards,

Jozef Miskolci, M.A.
